## Detailed Summary of The Happy Prince (200–250 Words)

**The Happy Prince** tells the story of a beautiful statue covered with gold and precious stones, placed high above a city. When the Prince was alive, he lived in luxury and never saw sorrow. After death, as a statue, he can see the misery of the poor people in the city.

A Swallow stops at the statue while migrating to Egypt. The Happy Prince notices suffering everywhere and requests the Swallow to help him. One by one, the Prince gives away his ruby, sapphires, and gold leaves to help a poor seamstress, a starving playwright, and a match girl.

Though the Swallow grows weaker due to cold, he stays back to help the Prince. Eventually, the Swallow dies at the Prince's feet, and the Prince's lead heart breaks into two.

The city officials later remove the now dull statue, calling it useless. However, God rewards the Swallow and the Prince by calling them the two most precious things in the city.

The Happy Prince Class 9 summary shows that true beauty lies in selfless love and sacrifice, not outward appearance.
