The poem **Wind** from **Class 9 English Beehive NCERT** presents wind as a powerful natural force and a symbol of life's difficulties. In the beginning, the poet requests the wind to come softly. However, the wind does not listen and causes destruction. It breaks shutters, scatters papers, tears pages of books, and throws down weak houses.

The poet explains that weak things cannot survive strong winds. Frail doors, old houses, weak fires, and weak hearts are easily destroyed. Through this, the poem *Wind* teaches that people who are physically and mentally weak cannot face challenges successfully.
